## OBJECTIVE

---

MERN Stack Developer with strong expertise in building scalable and responsive web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, authentication systems (JWT), and full-stack solutions. Passionate about writing clean, efficient code and delivering high-performance applications.

## EDUCATION

---

|                                                                                              |                            |
|----------------------------------------------------------------------------------------------|----------------------------|
| <b>Bachelor of Technology in Computer Science &amp; Engineering,</b><br>Galgotias University | 2022 - 2026<br>CGPA : 7.89 |
|----------------------------------------------------------------------------------------------|----------------------------|

|                                                                         |                    |
|-------------------------------------------------------------------------|--------------------|
| <b>Intermediate Examination</b><br>Saraswati Vidya Mandir Inter College | 2020 - 2021<br>72% |
|-------------------------------------------------------------------------|--------------------|

|                                                                        |                    |
|------------------------------------------------------------------------|--------------------|
| <b>High School Examination</b><br>Saraswati Vidya Mandir Inter College | 2018 - 2019<br>79% |
|------------------------------------------------------------------------|--------------------|

## SKILLS

---

### Technical Skills

**Languages:** C, C++, Java, JavaScript, HTML5, CSS3, SQL

**Frontend:** React.js, Redux, Tailwind CSS, Responsive Design

**Backend:** Spring Boot, RESTful APIs, Microservices (Basics), JWT Authentication

**Database:** MySQL, MongoDB

**Tools & Platforms:** Git, GitHub, IntelliJ IDEA, VS Code, Swagger, Docker (Basics), CI/CD (GitHub Actions)

**Concepts:** OOP, Data Structures & Algorithms, REST API, System Design Basics, API Design

### Soft Skills

Problem Solving, Team Collaboration, Communication, Time Management, Adaptability, Attention to Detail

Quick Learner, Critical Thinking

## PROJECTS

---

### AI-Powered Job Tracker (Full Stack)

Developed a full-stack web application using React.js, Spring Boot, and MySQL to track job applications. Implemented RESTful APIs, JWT authentication, and resume analysis features. Enabled users to manage 100+ applications with analytics and automated insights. ([Link](#))

### E-Commerce Platform.

Built a scalable e-commerce application using React.js and Spring Boot. Implemented user authentication, product filtering, cart system, and secure checkout using REST APIs. Optimized database queries and designed a responsive UI for better user experience. ([Link](#))

## EXTRA-CURRICULAR ACTIVITIES

---

- Solved 800+ Data Structures & Algorithms problems on ([LeetCode](#)) with consistent practice and Solved 100+ problems on ([GeeksforGeeks](#)) using C++, strengthening core DSA concepts
- Completed Web Development Virtual Internship, gaining hands-on experience in frontend and backend development. ([certificate](#))
- Completed AI/ML Virtual Internship by Google for Developers, focusing on real-world applications of machine learning and AI. ([certificate](#))
